

**PRESS RELEASE****SACYR WILL RENOVATE CHICLAYO AIRPORT (PERU) FOR 43  
MILLION DOLLARS**

- **Improvement of the airport's runway system and perimeter fence.**

**Lima, November 30, 2018.** Sacyr Engineering and Infrastructure will carry out the renovation of the Capitán FAP José A. Quiñones International Airport in Chiclayo (Peru) for 43 million dollars after being awarded the contract in the bidding process convened by Peru's Airport Association.

The works include the renovation of the pavements of the runway system and the construction of the airport's perimeter fence. The works will begin in January 2019 and will have an approximate duration of 18 months.

This project will increase the country's air connectivity and will benefit trade and tourism in the area.

**Sacyr in Peru**

Sacyr has a workforce of over 2,000 people in Peru, providing value and experience in the 15 contracts it is executing. These include the construction of the Callao Headquarters-San Marcos Stadium and the Villa María del Triunfo Headquarters of the Lima 2019 Pan American Games and Parapan American Games, and the concession of the Longitudinal Stretch II of the Sierra.
